

MARINE SAFETY INFORMATION BULLETIN

Volume XXI Issue 76

Time: 1000

Date: 19 Nov 2021

LOW WATER SAFETY ADVISORY:
MM 167.5 TO MM 303 AHP LMR (12' and below)

1. As a result of the Baton Rouge gauge reading **12 feet and below**, the COTP New Orleans has issued a Safety Advisory for all waters of the Lower Mississippi River (LMR) from Mile 167.5 Above Head of Passes (AHP) to Mile 303 AHP. This safety advisory is needed to protect vessels and mariners from hazards associated with low water, including possible shoaling and decreased channel widths. This safety advisory is **effective immediately** with the following provisions:
2. **Industry Navigating and Operating on the LMR**
 - A. All towing vessels in the vicinity of **College Town Light (MM 225 to MM 228.3)** are advised to keep flat on the bank and provide a wide berth to deep-draft vessel traffic.
 - B. Commercial vessel operators shall be aware of changing river-level conditions and monitor USCG safety broadcasts announcing known navigation trouble spots. Cargo loading and/or vessel draft, as well as tow size, should be adjusted accordingly to meet shallowing channel depths.
 - C. Pilots and Masters of oceangoing vessels should review the facility's docking procedures prior to arriving at the facility.
 - D. All vessels should transit in the charted navigational channel to the greatest extent possible.
 - E. Towing companies should consider staffing vessels with their most experienced crews.
3. **Movement of Vessels in the Vicinity of 81 Mile Point, LMR MM 177-179:**
 - A. In accordance with 33 CFR 161.65(e), all vessels moving or intending to move in the 81 Mile Point VTS Special area shall comply with the reporting requirements detailed in the VTS Lower Mississippi River User Manual or in 33 CFR 161.65 by contacting "New Orleans Traffic" on VHF FM Channel 05A.
 - B. Mariners are also advised of the increased possibility of shoaling in this area and should use extreme caution while transiting. Report missing aids to navigation to the Sector New Orleans Command Center.

This Marine Safety Information Bulletin **supersedes** Volume XXI, **Issue 073**, Low Water Safety Advisory: **MM 167.5 TO MM 303 LMR (16' and below)**.
