Setting of Port Condition NORMAL - Update 3

Effective September 13th, 2024 at 1200, the Captain of the Port (COTP) New Orleans has set port condition NORMAL. Vessel movement and cargo operations are authorized within the COTP New Orleans Zone, as described in Title 33 Code of Federal Regulations (CFR) Part 3.40-15.

All federally regulated waterways in the COTP New Orleans Zone are OPEN.

Although waterways are open to traffic, shoaling, storm debris, and other hazards may still exist. Mariners must be mindful of their vessel wake, as flooding conditions may exist in many communities near waterways. Aids to Navigation may also be damaged or missing. Mariners transiting the area should use caution, and report any Aids to Navigation damage, obstructions, and/or other waterways issues to Sector New Orleans Command Center at (504) 365-2209.
