To Whom It May Concern,

As a result of the recent action taken by the USACE to deepen the Lower Mississippi River to a federal project depth of 50', please note the following.

The Associated Federal Pilots and Docking Masters of Louisiana recommend a maximum deep draft, freshwater, as follows:

- 49' From Southwest Pass Sea Buoy to MM 104.7 AHP
- 48' From MM 104.7 AHP to MM 175 AHP
- 45' From MM 175 AHP to 232.4 AHP
- 40' From MM 232.4 AHP to MM 233.8 AHP

Please do not hesitate to reach out to me regarding this or any other matter.

Captain Gregory Bush

A handwritten signature in blue ink, appearing to read 'Gregory Bush', is written over the printed name.
